***iGR* announces new market research on a variety of Wireless & Mobile industry topics relevant for the transition to 5G**

New market studies, which were released during summer 2017, are currently available on the iGR website

AUSTIN, Texas, September 6th, 2017 – For U.S. employees returning from summer vacations, *iGR*, a market research consultancy focused on the wireless and mobile industry, is pleased to recap several new market studies that were released during the quiet summer months. The market studies focus on wireless & mobile industry topics that are relevant as mobile operators prepare for 5G, as well as current mobile consumer trends in the U.S.

Following is a list of the market studies, which are available to download and purchase directly from *iGR*'s website. Additional information, as well as purchase links, for each market study can be found using the following links.

[U.S. Outdoor and Indoor DAS Forecast, 2017-2022: Redefining DAS, eventually](#)

[U.S. Indoor Small Cells Forecast, 2017-2022: Connecting the building](#)

[3.5 GHz CBRS: Disruptive Spectrum](#)

[North America Mobile Video: The Continuing Challenge for Mobile Operators](#)
