Abstract

Mobile subscribers in the Middle East and Africa increasingly depend on a variety of mobile devices to stay connected. At the same time, they are increasing their usage of mobile data.

This market study overviews the Middle East and Africa mobile market and includes detailed information and a five-year forecast for the following areas of the market:

- Mobile Connections
- Smartphone Sales
- Tablet Sales
- Mobile Data Traffic.

Key questions addressed:

- What is the population of the Middle East and Africa region and what is its mobile penetration?
- How many mobile connections exist and how are they expected to grow between 2018 and 2023?
- What is the split of those connections by technology type (GSM, CDMA, UMTS/HSPA, LTE and 5G) and generation (2G, 3G, 4G and 5G)?
- What are the anticipated global handset and smartphone sales for 2018 to 2023?
- What are the anticipated tablet sales for 2018 to 2023?
- What is mobile data usage today and at what rate is mobile data usage expected to grow over the forecast period?
- How does mobile data usage differ between quartiles?

Who should read this report?

- Mobile operators
- Device OEMs
- Mobile infrastructure and equipment OEMs
- Content providers and distributors
